

# ENGINEERING CHALLENGE CUP 2020

## Bulletin\_03 OC Update

While the heatwave hits Europe this June, today's temperature rising up to 36°C, in the south of France, overlooking the Mediterranean sea, the OC team enjoys to think about being at sea, sailing next spring, in Croatian waters.

The OC team is booking progress; registrations are coming in with Great Spirit. As per June 28<sup>th</sup> we have 35 boats registered.

Please note that the second Sailing certificate, requested in the NOR, is no longer a requirement for Croatia! So we if this is blocking your entry, please ignore the request.

Eddo is working to improve the website together with the help of Hugh (OC team 2019) which speeds up our communication with you all incredibly. All our communications can be found via the website, so you can't lose anything. [www.eccsailing.com](http://www.eccsailing.com)

The closing date, at July 26 2019, will fix the fleet, so we can inform all skippers to start the boat selection after we made the lottery, so all know on which boat you will be racing.

Thinking about next year is creating a cool mind during this heatwave, we wish you all an enjoyable summer break, and you will be hearing from us soon again. Also please do not hesitate to register your boat.
