

ENGINEERING CHALLENGE CUP 2020

Bulletin 08 ECC2020 Trip to Dubrovnik

Lottery results and boat selection

Almost all the boats do have a skipper as from today, we hope you are happy with the outcome.

Recce Trip

We visited Dubrovnik mid of October for some preparations. We had a meeting with Alen Kustic, our race officer, who will be working on the sailing instructions and ratings of the boats. We also went true our one-way trip from Trogir to Dubrovnik with Sasha and we hope you will be as excited as we are about the places we will visit. Especially the Old town of Dubrovnik is absolutely worth a longer stay than only for one night. So, if you consider staying longer for some sightseeing, please take your own arrangements to extend you stay.

Travel information

Many, low priced, airlines opened flights to Split and from Dubrovnik for next year, both places do have very many direct flights to/from many European cities. It is worth to explore as prices rise as we come closer to the event.

We understand that some of the crews will require **transfers** and **accommodation** before and after the ECC event:

Transfers from/to Split airport on arrival can be organized with your charter company (for example, Navigare has one transfer included in the rate), contact to be given closer to date or earlier on request. (please share your arrival information with Sasha and Eva too!

For transfers in Dubrovnik (to the airport or back to Split Airport) and for the accommodation in Dubrovnik too, we have teamed up with Desa and Maro from Mediterranean Experience. Please contact them if you want help with organizing those or any other activity locally:

Telephone: +385 20 436 846
