

ENGINEERING CHALLENGE CUP 2022

Bulletin 07 Preparations

March 19th, 2022

Dear skippers and commodores,

Spring is coming, our moods are changing to the sunny side of the year.

After overcoming the pandemic together, we now face a new crisis.

However, today we do not expect the situation, caused by the Russian and Belarussian actions, to have a direct influence on our event. We feel very sorry for the people from the Ukraine and we hope that the situation improves soonest, however we think it will take time before this war ends. It is terrible and unexpected, how one man can destroy so much in such a short time.

We have 46 boats participating, a list of the registered skippers will be published on our website later.

Without receiving all crew-lists, we are not able to calculate final entry-fee's, we are not able to divide polos evenly over the crew. So please don't complain about any polo issues upon arrival in Trogir. We serve at first come first choose, as we still miss 50% of the crew lists.

Navigare necesse est,

Pieter Hadjidakis & Eddo Cammeraat
